

I have a phone line, and pay for it, for my own purposes. I don't want ANYBODY to use it without my authorization. This includes telemarketers. I am busy. I work non-standard hours. In my opinion one of the ugliest sounds in the world to wake up to is a ringing phone. Telemarketers are wasting their time, and violating my rights, interrupting and harrassing me via the phone. Do not supercede New Jersey's Do Not Call law. Telemarketers have no right at all to hijack a service *I* pay for and twist it for their own purposes to aggravate me.
